30 Get in touch

Welcome to BUREAU

1. Exceptional product quality at a price that's within your reach.

From their modern and modular design to their high-end performance, our products are the definition of quality. But don't let that scare you (or rather, your finance team). We believe that form and functionality belongs to everyone, which is why you can always expect us to deliver a premium product without the premium price tag.

Brag-worthy customer experiences that exceed your expectations. 2.

We're obsessed with making things easy. When you work with us, we want you to be so impressed by your experience that you can't stop talking about it. We take pride in every product and install, which is why you can always expect professional, personalized, and responsive care every step of the way.

3. Fast and frictionless service from start to finish.

We don't waste time — ours or yours. In the fast-paced world of doing business, we understand the value of your time. That's why we've made the experience of working with us as streamlined and hassle-free as possible, which means you get what you need, when you need it. It's the opposite of complicated.

Mission & Philosophy

Workspaces can be hard work. Ever since open-plan became pretty much the only plan, workplace design and culture have often focused on surface-level trends. Ping-pong tables and beer taps are well and good, but we're more interested in what truly inspires focused, meaningful, and lasting work. Utilizing technology, we design spaces that flex and modulate to the ever-changing, often abstract—but always fascinating—needs and behaviours of their people, furnishing businesses with the tools they need to design and inspire workspaces that work.

Empower your workspace with Bureau.

CREATE,

The Team

FOCUS,

ACHIEVE.

Bureau is trusted by the world's leading brands.

Thousands of successful installations worldwide. Seamless delivery and installation managed through our trusted network of trained global installers. Dedicated Bureau project managers oversee the process, ensuring efficiency from logistics to completion.

Why Bureau?

The top choice for practical, design-focused, businesses.

Superior soundproofing technology

Best value on the market

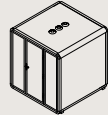

Customizable designs and finishes

Hands-on support from real humans

Fast lead times and White Glove installation

The ideal alternative to construction

TIME MACHINES

How many times per day are you interrupted while you're in the middle of something important?

Those constant interruptions average 23 minutes of productive time wasted. That comes out to around \$12,000 worth of lost time each year for an average employee.

We solve that problem with our 'Time Machines'. We have designed our booths to reclaim your time and attention; your most precious commodity.

Our booths will enhance your productivity, save you time and money, and help get you and your team focused on the work that matters.

Step into any one of our office booths for calm, uninterrupted productivity.

For more information and to calculate how much distractions are costing you, visit our distraction calculator withbureau.com/ca/calculator.

TUESDAY SERIES

The Tuesday

Tuesday

Soundproofing. Comfort. Flexibility.

Our Most Affordable Soundproof Booths

Our Tuesday booths offer the best value in our lineup – delivering premium soundproofing, ventilation, and design at an accessible price point. Whether you're a startup, small business, or growing team, you can create a quiet, productive workspace without overspending.

Fresh Air, Always

No one thrives in a stuffy space. Our Tuesday range features high-powered ventilation systems that fully refresh the air every three minutes – keeping you comfortable and focused, even during long work sessions.

Power and Connectivity

Each Tuesday booth comes with built-in power outlets, USB-A, USB-C, and Ethernet ports, so you don't have to interrupt your flow to search for a wall plug.

Smart, Energy-Efficient Lighting

Smart motion-sensor LED lighting ensures a well-lit workspace while saving energy. Need extra brightness? Adjustable desk lamps provide customizable lighting for reading, brainstorming, or video calls.

Tuesday

Private, practical, and purpose-build for solo focus.

Branding Opportunities.

Every workspace is unique, and your booth should be no exception.

That's why we offer a range of customizations to ensure your soundproof booths and modular meeting rooms are tailored to your specific requirements. Customizations, involving larger adjustments, are made during the manufacturing process, allowing us to create a booth that integrates seamlessly into your space.

Please note that these changes may impact lead times as they require additional design and production steps.

Branding

These customizations are perfect for businesses with unique space requirements or specific functionality needs that go beyond our standard offerings. Our team works closely with you during the design process to ensure the customized booth meets your expectations in both form and function.

Ready to create a booth that's as unique as your business?
Let us help you design a workspace solution tailored to your exact needs.

ELASTIC SPACES

FOR DEEP WORK

Keeping Booths out of Landfills: Squaring the circle.

At Bureau, we believe that design and sustainability should go hand in hand, because building a better future means rethinking how we work today. Our booth solutions are designed with modularity and longevity in mind, reducing waste and maximizing lifespan.

Through our recycling program, we aim to prevent booth disposal in landfill. Through this program, we facilitate the refurbishment, repurposing, or recycling of booths at the end of their lifecycle. By extending the lifespan of our products and diverting them from landfill, we significantly reduce their environmental impact.

Sustainability Driven.

We believe that great design shouldn't come at the cost of environment. That's why sustainability is built into every step of our process.

Recyclable materials

From recycled steel frames to sustainable wood panels, every material is chosen to minimize environmental impact.

Eco-Friendly Features

Motion sensor lighting & ventilation: saves power when not in use.

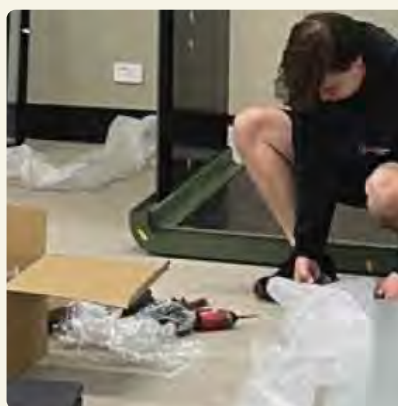

Refresh Program

At Bureau we offer a 'Refresh Program' to breathe new life into your existing acoustic modular booths. Revitalize the design or enhance functionality with refurbished parts, extending furniture lifecycle.

Lightweight Carbon Polymer Panels

Reduces weight and shipping impact.

Efficient flat-packed shipping

Every booth is flat-packed in recyclable corrugate, reducing packaging waste and transportation emissions.

Minimizing emissions and waste

From production to shipping, we optimize our operations to reduce environmental impact.

Certifications.

Our commitment to sustainability is backed by a range of environmental and legal certifications that ensure our products are produced and maintained in an environmentally friendly manner.

BIFMA e3 / LEVEL

Manufacturers that achieve BIFMA e3 / LEVEL certification demonstrate to the marketplace that their products, manufacturing facilities, and company policies have met stringent third-party sustainability requirements.

CSA C22.1

This is a standard published by the Canadian Standards Association pertaining to the installation and maintenance of electrical equipment in Canada. Similar to the UL 962, but specifically for the electrical.

UL 962

UL 962: We are tested to UL 962 standard by SGS (an OSHA-recognised NRTL), which contains specific criteria pertaining to booths, including requirements for egress doors, fire detection and suppression and structural integrity.

ISO 2335-1 & ASTM E594

The ISO 2335-1 test quantifies the degrees of speech reduction provided by a specific pod. The ISO 23351 standard determines whether a specific pod ensures speech privacy. BIFMA is releasing a new pod standard and this will be the standard acoustic tests.

ISO 14001:2015

Environmental Management Systems. Ensures our products are produced in an environmentally friendly way. We source from suppliers that are ISO 14001 compliant.

Seismic Bracing

Bureau has engineer approved plans for seismic bracing. We offer this as an add-on during booth installation. If you're interested in learning more, please let your sales representative know and they can provide an overview of seismic bracing for you.

CAN/ULC - S102

Canadian version of ASTM E84 - Surface Burning Characteristics of Building Materials and Assemblies, for the evaluation of interior building surface characteristics including walls, ceiling and flooring products

ISO 14067:2018

Provides guidance and requirements for quantifying and reporting the carbon footprint of products, including goods and services. Focuses on greenhouse gas emissions and removals throughout the products life cycle, from raw material extraction to end-of-life. We source from suppliers that are ISO 14067:2018 compliant.

Care & Maintenance.

Our booths are designed to be low-maintenance and only require periodic cleaning and maintenance to keep them functioning optimally. Read our user manual, which provides detailed instructions on how to clean and maintain your booth.

If you have any concerns or questions, please feel free to contact info.ca@withbureau.com for assistance.

Bureau Marketplace

Life is full of changes; sometimes, it takes work to keep up. If you have a booth you no longer need, we can help you find a new home. Our Bureau Marketplace is designed to connect you with non-profit organizations, charities, and impact ventures that could benefit from having your booth at a reduced price. We manage the entire process to ensure a smooth transition and a perfect fit for everyone involved. By finding a new home for your booth, it can continue to provide value and positively impact its new setting. Someone could always benefit from what you no longer need.

Refresh Program

If you want to bring life back into your booth but avoid purchasing a brand-new one, our Refresh Program is the solution you need. This service allows you to revitalize your booth without investing in a new one. You can refresh worn-out parts, improve existing features, and add new ones to enhance your booth's appearance and functionality. With our Refresh Program, you can give your booth a modern and attractive makeover that will extend its lifespan and ensure it remains an efficient and dynamic space for your team. Enjoy the benefits of a refreshed booth tailored to your needs and goals.

Accidental Damage

Mistakes can happen anytime, and we understand that. That's why we have designed our booths with modularity in mind. Any accidental damage, like scratches, dents, or broken parts, can be easily repaired or replaced. If your booth suffers any such damage, please get in touch with us immediately. We will work with you to assess the damage and offer cost-effective solutions to restore your booth to its best condition. This may involve replacing panels, glass, door hardware, or other components. We aim to provide timely and efficient service to minimize downtime and restore your booth to its original state.

Frequently asked Questions.

1. How are installations facilitated?

We offer white-glove installation and assembly on every soundproof booth purchased.

2. What level of support and maintenance can we expect?

The Bureau team is available to answer any inquiry during business hours Monday-Friday. See our Care and Maintenance document at withbureau.com for further information.

3. Do you offer discounted rates when multiple booths are ordered?

Yes, we would be happy to discuss your specific needs and find a solution that addresses your order quantity and assembly needs.

4. How long to receive my order?

Unlike other companies, we stock our most popular booths across the globe so we can get them to you faster. This ensures that you generally will receive your booth in as little as 2 weeks* from order.

*Shipping and installation dates vary by order size and booth availability.

5. Can booths be moved?

Yes! The modular design allows you to move them around the current space they are in or even relocate them to a new space. Our booths come with an optional moving kit for ease.

6. What kind of electrical requirements are needed for the booths?

All our soundproof booths are "plug and play," meaning they simply need a standard 110V outlet to provide power. For additional technical information, please reach out to us.

7. How soundproof are the booths?

Our booths remove 30dB* of ambient noise. This is enough noise reduction to create extremely comfortable atmosphere to work and meet without the feeling of being in a vacuum.

*ASTM E596

8. How long do service requests take and what is the purpose?

24 hours. Simply submit your support request via our online portal and we will be in touch.

9. Can I cancel my order?

Yes, as long as your booth has not already shipped from our facility.*

*Cancellation fees may apply

10. Is furniture included?

With the exception of the CLUBHOUSE, all of the booths include furniture.
