Furnish a workspace that works

Contents
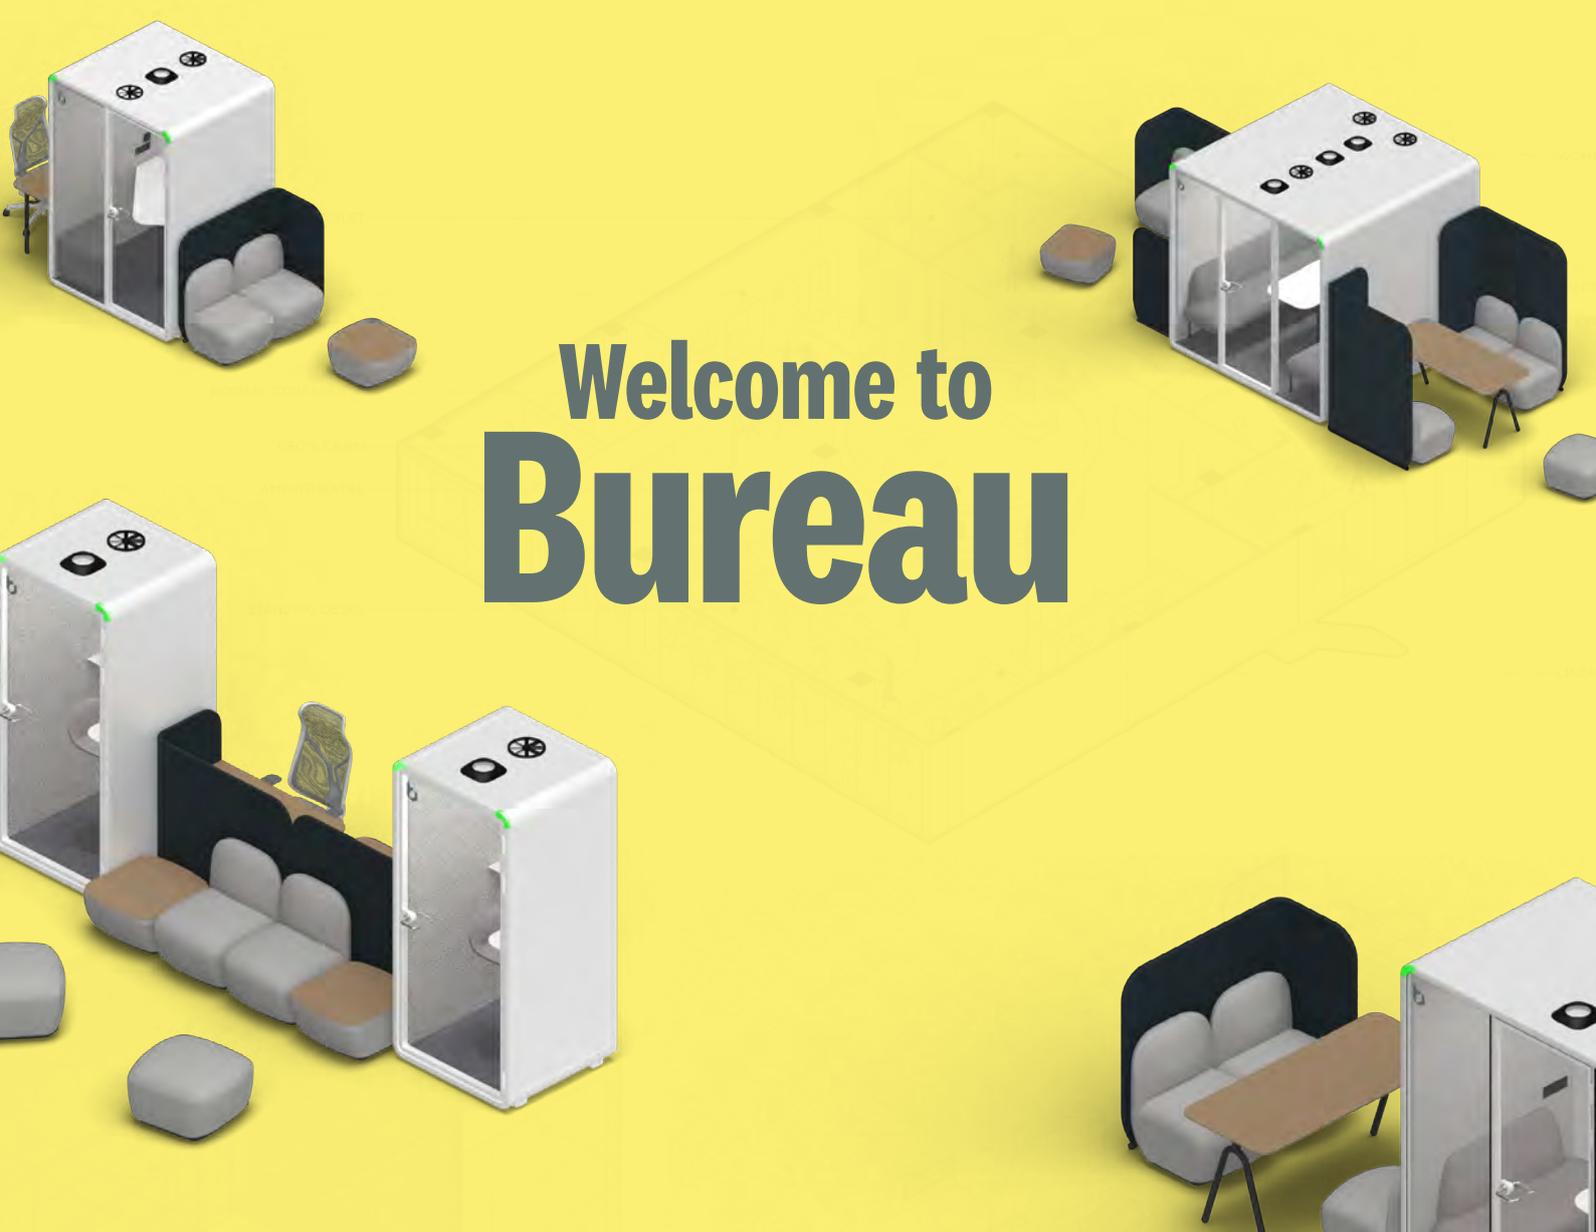

Welcome to
Bureau

01.

People-First Productivity

We design booths for actual people. Because no two humans (or workdays) are ever the same.

Our booths flex with you, creating the right spot to think, chat, or power through your to-do list.

02.

Sustainability Built In

We believe the best workplace is one that works for the planet too. Our booths are built from recyclable materials, and made to last. Bureau booths are the most certified booths in the world including ISO 233351–1, BIFMA Level 2, UL 962 and ASTM E84.

03.

Services That's Always On and Always Up for It

We work hard, stay upbeat, and always get it done. Fast responses, zero fuss, and we don't stop until you're sorted.

04.

Quality You Can Feel

We don't cut corners. Every Bureau piece is engineered for comfort, built to last, and designed to look good doing it.

From the first sit to the thousandth meeting, our booths and furniture deliver that just-installed feeling - quiet, solid, and ready for whatever work throws your way.

BUREAU

Mission & Philosophy

Workspaces can be hard work. Ever since open-plan became pretty much the only-plan, workplace design and culture have often focused on surface-level trends. Ping-pong tables and beer taps are well and good, but we're more interested in what truly inspires focused, meaningful and lasting work. Utilising technology, we design spaces that flex and modulate to the ever-changing, often abstract, but always fascinating needs and behaviours of its people, furnishing businesses with the tools they need to design and inspire workspaces that work.

Empower your workspace with Bureau.

How many times per day are you interrupted while you're in the middle of something important?

TIME MACHINES

The One+ Focus

-23MIN
productive time per day

-£8,800
worth of time each year

Those constant interruptions average 23 minutes of productive time wasted. That comes out to around £8,800 worth of lost time each year for an average employee.

The Tuesday+

We solve that problem with our '**Time Machines**'. We have designed our booths to reclaim your time and attention: your most precious commodity.

Our booths will enhance your productivity, save you time and money, and help get you and your team focused on the work that matters. Step into any one of our office booths for calm, uninterrupted productivity.

For more information and to calculate how much distractions are costing you, visit our distraction calculator withbureau.com/uk/calculator.

BUREAU

Why Bureau?

The top choice for practical, design-focused businesses.

- ✓ The ideal alternative to construction
- ✓ Customisable design and finishes
- ✓ Hands-on support from real humans
- ✓ Superior soundproofing technology
- ✓ Fast lead times and White Glove installation
- ✓ Best value on the market

Our most affordable soundproof booths

Our Tuesday booths offer the best value in our lineup – delivering premium soundproofing, ventilation, and design at an accessible price point. Whether you're a startup, small business, or growing team, you can create a quiet, productive workspace without overspending.

Tuesday

Fresh air, always
No one thrives in a stuffy space. Our Tuesday range features high-powered ventilation systems that fully refresh the air every three minutes – keeping you comfortable and focused, even during long work sessions.

Smart, energy-efficient lighting
Smart motion-sensor LED lighting ensures a well-lit workspace while saving energy. Need extra brightness? Adjustable desk lamps provide customisable lighting for reading, brainstorming, or video calls.

Power and connectivity
Each Tuesday booth comes with built-in power outlets, USB-A, USB-C, and Ethernet ports, so you don't have to interrupt your flow to search for a wall plug.

Technical Information

Capacity
1–2 People

Warranty
Two-year warranty

Furniture
1x upholstered booth seat & HPL meeting table

Acoustic
28db NIC ASTM E596

Footprint
1115mm × 1180mm

Ventilation
- Airflow: 35–85m³/hr
- 1x silent, built-in adjustable fan

Lighting
- Light sources: 1x 6w LED (dimmable)
- Colour temperature: 4000K (adjustable)
- Colour Rendering Index (CRI): 95+
- Reading Lamp

Dimensions
- Internal: W: 100mm D: 1070mm H: 1960mm
- External: W: 1115mm D: 1180mm H: 2260mm
- Doorway: W: 1100mm
- Weight: 250kg

Power and Data
- Internal: x1 GPO, x1 USB-C, and 1x USB-A (above desk)
- External: Power inlet, located on back left-hand side. Includes a standard 1.8 metre long cable
- Power consumption: 11W
- Operation: Motion sensor operated with manual controls

Design
- Eco-friendly materials and packaging
- Mount monitors on the wall or table

Certifications
- BS EN 1021–1/2: Tests for the ignitability of upholstered furniture components
- BS 5852: Assesses the fire performance of upholstered seating
- ISO 23351–1 & ASTM E596: Measures the pod's ability to reduce speech levels for privacy
- CE Marking: Indicates conformity with health, safety, and environmental protection standards for products sold within the European Economic Area
- FSC / PEFC Certification: Ensures wood materials are sourced from responsibly managed forests
- BIFMA Level 2: Sustainability standard for furniture, evaluating environmental, social, and health impacts

SIGNATURE

The Next Generation of Modular Workspaces

SERIES 2.0

The Signature Series represents the boldest evolution of our flagship booth range.
Engineered for **superior acoustics**, **smarter ventilation**, **modular interiors** and **unified global design**.

Features at a Glance:

1. Soundproof of Engineering
Reduces office noise by up to 30 decibels

2. Plug and Play Setup
Installed in under two weeks — zero disruption to your operations

3. Modular Work Architecture
A flexible interior framework built for changing teams and tasks

4. Engineered Air Performance
Dual-fan airflow with automated refresh cycles for consistent comfort

5. Smart Power Integration
Built-in lighting and outlets keep every booth work-ready

6. Adjustable Lighting System
4000k Daylight-mimicking light for visual comfort

7. Silent Magnetic Latch + Casters
Quietly seals the booth and allows smooth relocation

5 Sizes
11 Configurations
One Unified System

Designed Around Work Modes

Solo

Quick Calls (under 10 min)

Made for **quick in-and-out moments.** Solo gives users a quiet spot for speedy calls, quick check-ins and short bursts of focus.

Stand

Short Sessions (15–45 min)

Perfect for **15–45 minute conversations.** Stand keeps teams upright, alert and moving, ideal for quick decisions and short collaboration sessions.

Focus

Private Workspace (60 min+)

Engineered for **deep concentration and extended productivity.** Focus provides a comfortable, distraction-free setting for thinking, creating, and working in flow.
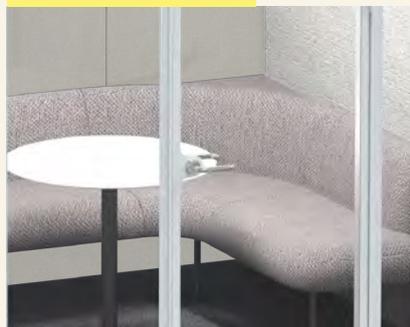

Meet

Everyday Meetings (20–45 min)

Designed for everyday team sessions. Meet comfortably hosts small groups for casual catch-ups, short meetings and regular project conversations.

Collab

Workshops/Ideation (15–40 min)

For teams who think on their feet. Collab suits **dynamic workshops**, **spontaneous ideation** and **shorter, high-energy sessions** with room to move.

Huddle

Structured Discussions (60 min)

Ideal for structured **30–60 minute discussions**. Huddle provides a compact, enclosed meeting room feel for **planning, alignment** and **decision-making.**

For Deep Work

# Branding Opportunity

Every workspace is unique, and your booth should be no exception.

That's why we offer a range of customisations to ensure your soundproof booths and modular meeting rooms are tailored to your specific requirements. Customisations, involving larger adjustments, are made during the manufacturing process, allowing us to create a booth that integrates seamlessly into your space.
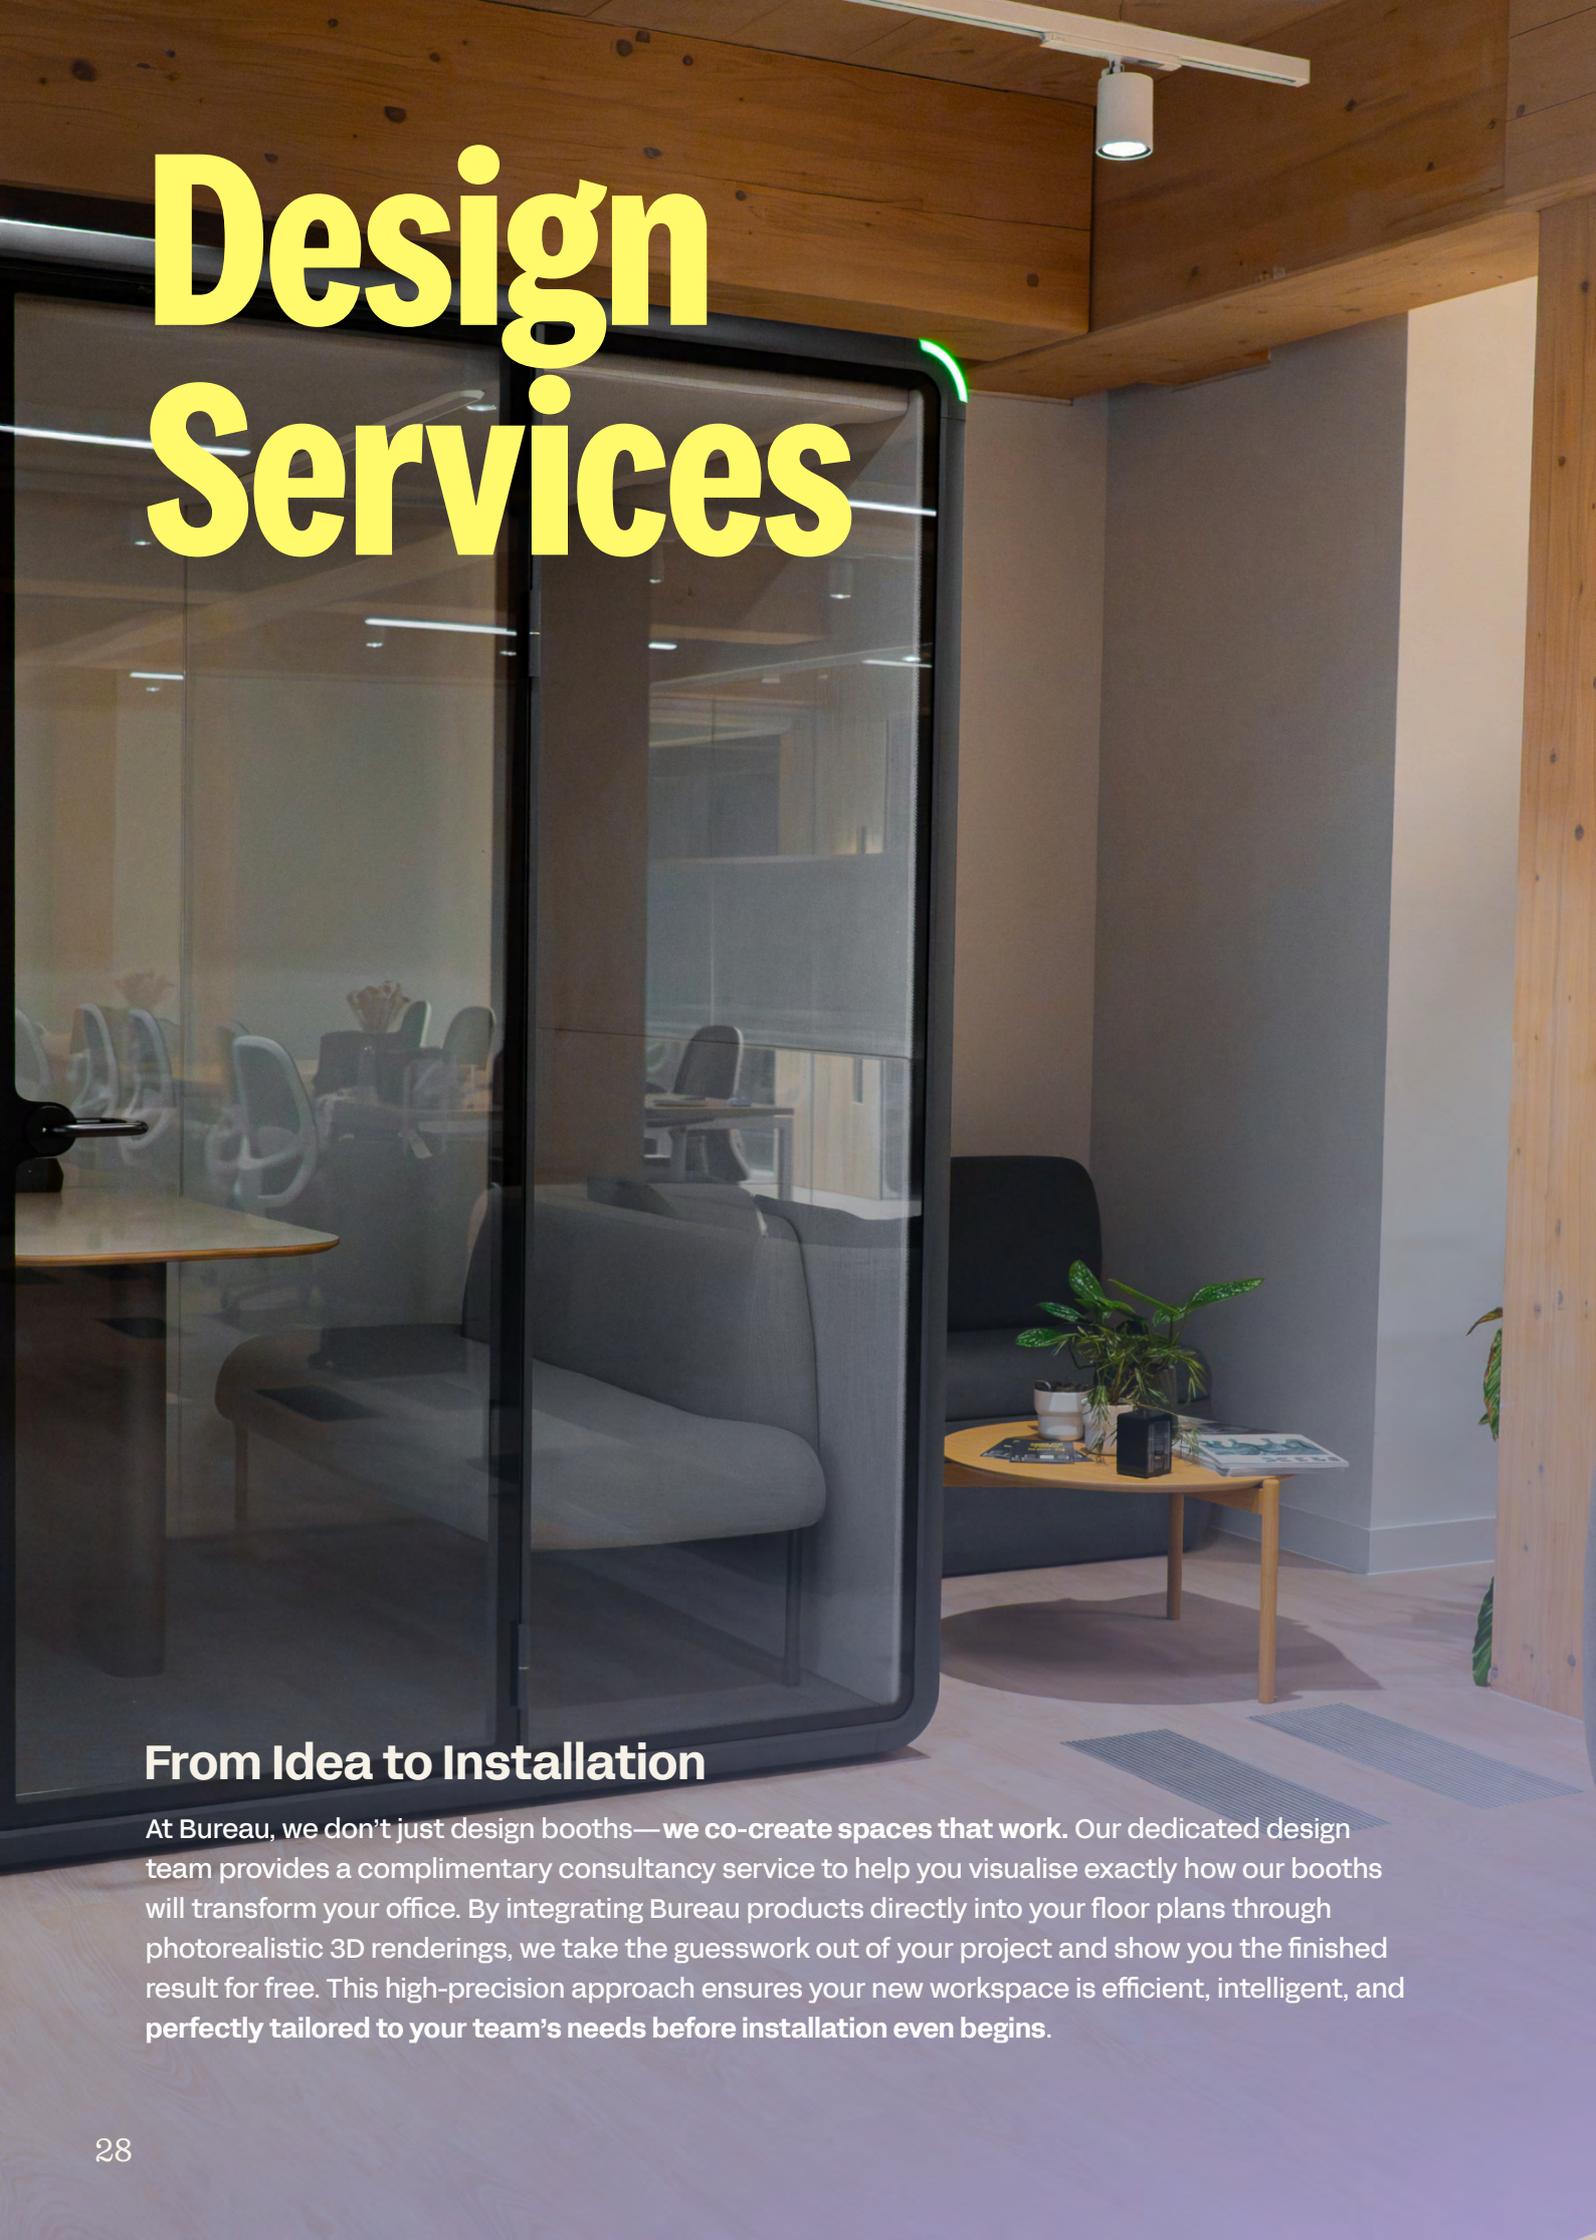

Design Services

From Idea to Installation

At Bureau, we don't just design booths—**we co-create spaces that work.** Our dedicated design team provides a complimentary consultancy service to help you visualise exactly how our booths will transform your office. By integrating Bureau products directly into your floor plans through photorealistic 3D renderings, we take the guesswork out of your project and show you the finished result for free. This high-precision approach ensures your new workspace is efficient, intelligent, and **perfectly tailored to your team's needs before installation even begins.**

01 | Floorplan & Layouts (2D)

We collaborate with you to design floor plans and room layouts that thoughtfully integrate Bureau booths and products efficiently, intelligently, and with real-world use in mind. These layouts support planning, visualisation, and seamless decision-making. To get started, we'll need at least one of the following: **CAD models (2D or 3D); floorplan drawings or other drawings & sketches**.

Note

Even a single dimension, no matter how simple, helps us generate a more precise and reliable layout. A good example is shown below:

Before

After
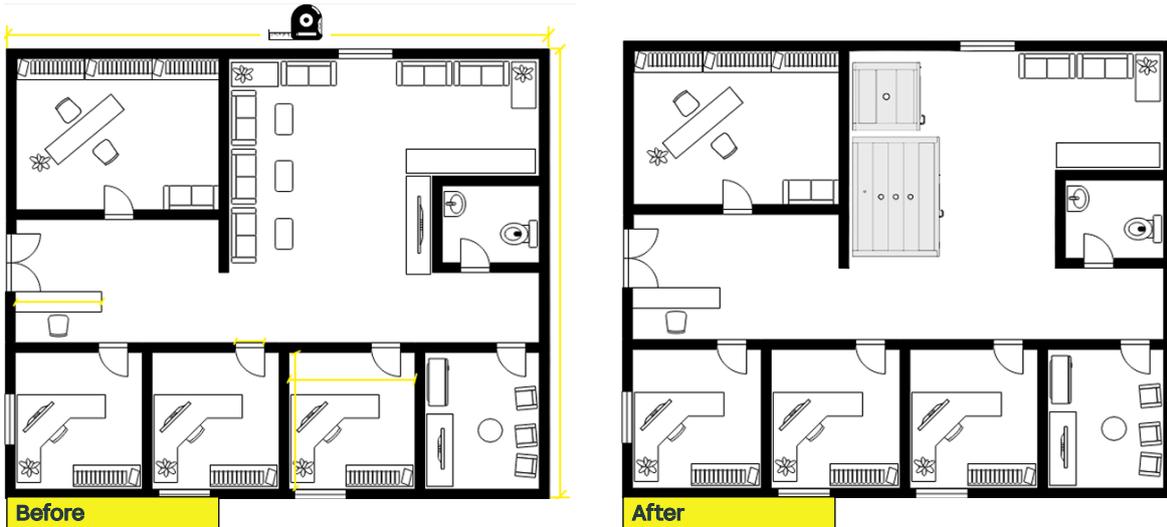

02 | Installation Renderings

We create photorealistic 3D renderings that place Bureau products in your space—so you can see exactly how your installation will look and feel. To deliver these visuals, we'll need **clear, level, and aligned photos showing all relevant angles.**

Note

This material allows us to scale the room accurately and ensure well proportional results. Below is an example of a good input image, and the according quality of visualisation we can provide:

Before

After
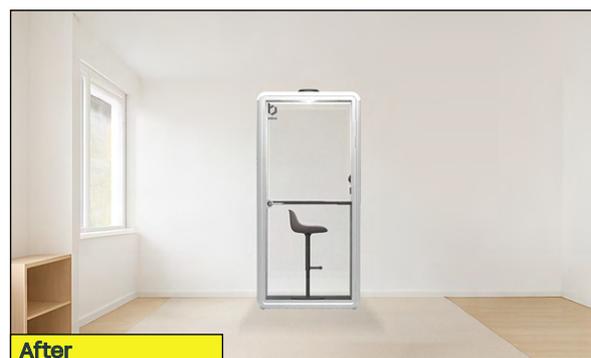

Keeping Booths Out of Landfills

At Bureau, exceptional workspace design never comes at the planet's expense. **Our soundproof pods are built to build better, waste less,** and **last longer.**

We don't do disposable. Our booths are built to evolve—not expire. With **Bureau's Refresh Programme**, booths can be refurbished or **upgraded with new parts**, **extending lifespan** and **keeping materials in use**. Modular by design, they adapt as needs shift—this year, next year, and beyond.

Materials matter: Sustainable by Design

- Recycled steel frames and FSC-certified wood panels with 85% recycled content
- Low-VOC acoustic materials and powder-coated finishes for healthy indoor air quality

Manufacturing Intelligence: Smart Production, Minimal Waste

- Flat-pack, recyclable packaging cuts shipping volume by 65% and eliminates plastic waste
- Just-in-time production minimizes inventory, emissions, and overproduction

Lifecycle Value: Built to Last, Designed to Adapt

- Modular, disassembly-ready design supports reconfiguration, relocation, and adaptive reuse
- Refresh Programme and replaceable parts extend product life and eliminate full-unit disposal

Materials matter: Sustainable by Design

- Self-contained, energy-efficient pods require no HVAC expansion Zero construction waste with rapid deployment
- Adaptive reuse replaces permanent buildouts 40% more usable space with a flexible, reduced real estate footprint

Certifications

Our commitment to quality and safety is backed by a range of international certifications, ensuring our products meet the highest environmental, fire, and acoustic standards for the UK and EU markets.

BS 5852 / BS 7176
Determines the fire safety and upholstery standards (Crib 5) for contract furniture.

CE / UKCA
Manufactured in accordance with European and British electrical safety, EMC, and Radio rules.

ISO 14001
Specifies requirements for an effective environmental management system. We source from suppliers that are ISO 14001 compliant.

ISO 14001
Specifies requirements for an effective environmental management system.

ISO 23351-1
The international standard for measuring speech level reduction. Our SRP booths achieve Category A (up to ~30 dB).

REACH / OEKO-TEX
Ensures all fabrics and materials are free from harmful substances and meet strict environmental safety criteria.

EN 13501
The European standard for the fire classification of construction products and building elements, specifically for laminates.

ASTM E596
Certifies that the product meets recognized international standards for noise isolation (NIC) and sound insulation.

WELL Programme Participation
Bureau is a registered participant in the IWBI WELL programme.

SUSTAINABILITY

BUREAU

Bureau vs Traditional Construction

01	**Carbon footprint:**	Bureau dramatically reduces embodied carbon, producing 2.1 tons of CO_2e compared to 8.4 tons from traditional construction.
02	**Construction waste:**	Bureau generates less than 23kg of waste, while traditional construction creates over four tons per room.
03	**Installation time:**	Bureau installs in just 2–4 hours, versus 8–14 weeks for conventional builds.
04	**End-of-life Recovery:**	Bureau achieves up to 95% material recovery, far exceeding the sub-30% recyclability of traditional construction.
05	**Transport:**	Bureau ships flat-packed for maximum efficiency, unlike traditional construction that relies on standard freight.
06	**Adaptation flexibility:**	Bureau's fully modular system allows spaces to evolve without demolition or rebuilds.

FAQ

1. How are installations facilitated?

We offer white-glove installation and assembly on every soundproof booth purchased.

2. What level of support and maintenance can we expect?

The Bureau team is available to answer any enquiry during business hours Monday–Friday. See our Care and Maintenance document at withbureau.com for further information.

3. Do you offer discounted rates when multiple booths are ordered?

Yes, we would be happy to discuss your specific needs and find a solution that addresses your order quantity and assembly needs.

4. How long to receive my order?

Unlike other companies, we stock our most popular booths across the globe so we can get them to you faster. This ensures that you generally will receive your booth in as little as 2 weeks* from order.

*Shipping and installation dates vary by order size and booth availability.

5. Can booths be moved?

Yes! The modular design allows you to move them around the current space they are in or even relocate them to a new space. Our booths come with an optional moving kit for ease.

6. What kind of electrical requirements are needed for the booths?

All our soundproof booths are "plug and play," meaning they simply need a standard 230V outlet to provide power. For additional technical information, please reach out to us.

7. How soundproof are the booths?

Our booths remove 30dB of ambient noise. This is enough noise reduction to create an extremely comfortable atmosphere to work and meet without the feeling of being in a vacuum.

8. How long do service requests take and what is the purpose?

24 hours. Simply submit your support request via our online portal and we will be in touch.

9. Can I cancel my order?

Yes, as long as your booth has not already shipped from our facility.*

*Cancellation fees may apply
